Student Rating of Teaching Course Data Release

Pursuant to the University's administrative policy, Evaluation of Teaching, which allows students to view "Student Rating of Teaching responses that pertain to a course and not to a specific individual" (Section A.6.), updated results have been published in a searchable format below.

The scale is:

6. Strongly agree
5. Agree
4. Somewhat Agree
3. Somewhat Disagree
2. Disagree
1. Strongly Disagree

For courses with multiple class sections, the average score of all sections is listed

If a course is not listed it means that no data is available for the course. This PDF can be searched using your PDF reader's built-in search function. To access this function within the PDF, press the "Control" and "F" buttons at the same time. Then type in your search criteria and press "Enter". (e.g., Ctrl+F, LA 1201, Enter) Course title and naming convention has been updated to reflect the course's current title.
